

CRCI BRIGHT SMILES ENDOWED SCHOLARSHIP FUND

A Smile Is Worth a 1,000 Words!

Many men and women arriving at Christian Recovery Centers, Inc. (CRCI) have spent years battling substance misuse, often at the expense of their health — especially their dental health. Long-term neglect can lead to serious damage or tooth loss, affecting confidence, dignity, and even the willingness to smile.

When residents finally receive the dental care they've gone without, something powerful happens. They smile fully and freely again. Their confidence grows. Their sense of worth returns. Restoring a smile helps restore hope.

CRCI is honored to introduce the CRCI Bright Smiles Endowed Scholarship Fund, created to help graduating residents receive essential dental treatment as they rebuild their lives. This fund allows them to step into their future with healthy smiles and renewed self-worth.

We invite compassionate individuals, organizations, and corporations to join this mission. We also welcome conversations with local dentists who feel called to offer care at little or no cost.

To learn how you can support this effort, please contact the Development Office (910) 287-4357 EXT. 1404 or development@crcirecovery.org
