

MARCH 2023

THE AWAKENING

Official Newsletter of Christian Recovery Centers Inc.

Christian Recovery Centers continues to be our community's highest impacting agency in the fight against substance use disorders. I give thanks to God for all the good things that he employs us to contribute and to putting committed supporters, like you, in our lives. The Rose House is in full swing serving women and now we cannot wait to see it blossom to its fullest potential. Please keep an eye open for an exciting press release in the coming months introducing our new expanded occupancy campus for men! *To God be the glory!*

Thrift Store Grand Opening

MARCH 28TH 2023 • 12PM

After three months of a trial-run soft opening the new Christian Recovery Thrift Store has already exceeded everyone's expectations. This newly renovated space has stood up to the test proving to have it all to ensure a great shopping experience for anyone who walks in the door. The inventory of new or gently used items continues to grow because of a generous community who understand the mission behind this operation. Of course, we could not forget to mention the sea of smiling faces that make up our dedicated staff and volunteers that you will witness when walking through the doors. With over 40 active volunteers this store paints the image of "teamwork for a cause." With only a couple paid staff, these volunteers make certain more dollars every month are contributed to CRCI's charitable services - helping men and women overcome the horrors of addiction. We would like to invite you to attend our official Grand Opening event on Tuesday March 28th so you can see all these great things for yourself.

A UNIQUE WAY TO PARTNER WITH US

Additional Services

- Pressure washing
- Yard cleaning & waste removal
- Gardening & weed control
- Tree & shrub planting
- Mulching

CRCI's Workforce Redevelopment Program (WRP) concentrates in increasing the employability of each individual receiving substance disorder treatment services through this work based learning. We assist every resident in creating real and practical employment skills in a few of the leading occupations in our community. The best news is that every dollar raised while running these programs goes directly into CRCI's residential treatment expenses. This is another huge way CRCI does all that it can at no cost to the individual. We can be your crew who takes care of your lawn for your home or business for anything from everyday mow and blows, on a weekly or bi-weekly basis, to spring yard clean up!

Spring 2023

After our ribbon cutting in November, 2022 the Rose House was made aware of a few more mandatory updates that would be required from the county. The largest of which was replacing all the doors inside the home with fire rated frames and doors. We are so grateful the women have finally arrived inside their new home and programs have officially started! At last, serving women of the Rose House in the Rose House. Currently providing residency to 14 women including 2 staff, 3 LDI's, and 9 residents this home continues to prove to be the most accommodating residential recovery program in our region. Soon the home will be filled to its maximum capacity and will continue to serve as a beacon of hope for years to come. With the flood of support that prevails, it's obvious that our community is ready to drive the Rose House into a huge success on the mission of *saving lives and saving souls!*
